

Health & Safety

This one day course can be for those who have entered, or are about to enter, the construction and civil engineering industry. The course will give you an awareness of health and safety and how it affects your daily role. It can be used as preparation training for the CITB Health, Safety and Environment test or as refresher training.

This course is the first step towards a CSCS Labourers Card (Green Card) and to the progressive CITB Site Safety Plus courses that range from operative training, up to Supervisor, Site Manager and Director of Health and Safety courses.

On successful completion of this course you can progress to sit the Health Safety Environment Operatives test. If you pass this you can apply for your CSCS card.

This course is accredited by CITB CSkills Awards and you will receive a certificate on successful completion.

Duration: 1 day

Cost: £150
